## ***Titus 2.11-15***

We live in a fallen world that takes its toll on us as sojourning Christian pilgrims. We are not who we once were and we are set apart by Christ to live differently from unbelievers around us. The church in first century Crete and the church in twenty-first century St. Augustine both need regular reminders of who we are and all that we have in Christ. These great truths serve to encourage and exhort us to holy living and good works along the way to our final destination.

**The \_\_\_\_\_ that instructs us**

**The \_\_\_\_\_ that encourages us**

**The \_\_\_\_\_ that await us here and now**

***While we wait for his coming, let us live holy lives through the grace of God and the power of the gospel.***
